

Heavy Duty Standpipe Covers

Security & Sustainability in one

Made from Recycled Plastic

The FTS standpipe covers provide:

- **Strong** protection for your monitoring wells with a professional, stylish finish
- **High security** with one way security screws to deter tampering
- **Padlockable**
- Stand out blue colour or economical black with large bright orange reflectors for **high visibility**
- **Wider opening** for easy access
- **Safer** to use with no sharp steel edges
- Fully **sustainable**, made from post consumer recycled plastic waste
- Unlike steel covers **will not rust**
- Wide holes at bottom for **rigid fastening** into concrete base
- Easily cut to smaller size before shipping or **hand cut** on site to shorter length if required

Helping Save Our Environment & Resources
